Sample of Uploaded Data

View Data Sample ⌄

Required Format

The data should be a JSON array with objects containing these fields:

- `id` : A unique identifier for each entry
- `text` : The text content to annotate
- `labels` : An array of label strings

Example:

```
[
  {
    "id": "1",
    "text": "想要整体上具有魅力",
    "labels": ["高频", "效果器"]
  }
]
```
